Sox1-HU Change in Cause Beckersled Description		3	70.
present report states that the elements of the 10th Gds Mecz Div had not returned to their Juensdorf post on 28 October, it is possible that the elements of this division, upon completion of their summer exercises, remained in another area rather than returning to their former billeting area of Juensdorf-Zossen. The division may have been reassigned to its former billeting area of Lagdeburg and the area west of the city, where it had been stationed prior to its transfer to the area south of Berlin in 1947. This assumption may be supported by a previous report that the 50X1-HL Soviet troops in Camp Born would start moving to the barracks at the Hillers-leben range and to the Seeckt Kaserne, Magdeburg, on 25 September 1950; and by another report of 11 September 1950 50X1-HL that 1,400 troops would move into the vacant Mansfeld Kaserne, Malberstadt, in the fall of 1950. 50X1-HL September 1950. 50X1-HL Beckessined	fied either at Letzling H	eath or returning to Hillers	leben on 12 October 1950,

Although it is necessary to further substantiate this assumption, a return of the 19th 3ds Necs Div to the hitherto unoccupied area west of Magdeburg, and thus back to its army area, seems plausible. The troops observed in Wuensdorf at the end of October 1950 were only rear details, probably of units of the 19th 3ds Mecz Div.	50X1-HUM
